Dr. Kaminski - you have my word that:

- I wrote this entire application myself (except the Display program, which is the one you provided, with modifications for path issues) - in accordance with the guidelines in the course policies, syllabus and university policies of student of what's considered acceptable academic behavior. Any code (longer than a line or two) used in this assignment which was created by someone else (even if changed slightly) or was written jointly with someone else is both clearly attributed (in a comment in the code) and described below.
- The program code attached here **did** actually produce the data files which are attached here.
- There was no editing of the data files after the attached programs produced them (except perhaps the font, font size, wrap-around and/or page-orientation for printing).

Please list below all aspects of your programs and output that either do not work and/or do not follow my A3Specs and A3DemoSpecs (or prior asgn specs, where relevant).
