Dr. Kaminski - you have my word that:

- I wrote this entire application myself (except the 2 Utility programs, and the starting project “template” provided) - in accordance with the guidelines in the course policies & syllabus and university policies of what’s considered acceptable student conduct. Any code (longer than a couple lines) used in this assignment which was created by someone else (even if changed slightly) or was written jointly with someone else is both clearly attributed (in a comment in the code) and described on the back of this cover page.
- The program code attached here **did** actually produce the data files which are attached here.
- There was no editing of the data files after the attached programs produced them (except perhaps the font, font size and/or page-orientation for printing).
